

Alhaz Mockbul Hossain University College

Department of Computer Science & Engineering

CSE 7th Semester

Session-2016-17

Book List:

Subject with Code	Necessary Books
Computer Network (CSE-411)	1. W.Stallings, Data & Computer Communication. 2. Ehrouz & Forouzen, Data Communication & Networking. 3. Tannenbaum, Computer Networks.
Artificial Intelligence and Neural Network (CSE-413)	1. Stuart Russel & Peter Norvig, Artificial Intelligence: A Modern Approach. 2. Stamations V Katalopoulos, Understanding Neural Networks and Fuzzy Logic.
Parallel and Distributed Processing (CSE-414)	1. Advanced Computer Architecture- Hwang Kai. 2. Distributed Operating System-P.K. Sinha. 3. Distributed Operating System-Tanenbaum.
Peripheral and Interfacing (CSE-415)	1. Microprocessor and Interfacing by Andrew Hall. 2. Computer Peripheral (Part B) by Barry Wilkinson.
Digital Signal Processing (CSE-417)	1. Emmanuel C. Ifeachor, Barrie W.jervis. Digital Signal Processing. 2. John G. Proakis, Dimitris G. Manolakis, Digital Signal Processing Principles, Algorithms and applications. 3. Alan V. Oppenheim, Ronald W,Schafer, John R. Buck, Discrete Time Signal Processing

Md. Iftekhar uddin khan
Coordinator, CSE Dept.

Md. Nazrul Islam
Head of CSE Dept.
